

Remarks

As required by 37 C.F.R. §1.121(f), Applicant affirms that no new matter has been added to the application in the replacement section or drawings, but is intended to only more accurately reflect the invention and better aid in the understanding and comprehension of the claimed device.

Dated: February 18, 2005

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Michael A. Baffa", written over a horizontal line.

In the Drawings

Persuant to 37 CFR § 1.121(d), please replace Figures 2a and 2b of the pending figures with the replacement figures attached as Appendix B ("Replacement Figures"). In Figure 2a, Element 85 was deleted and the two wires within electrical connection 80 are shown to connect to the piezoelectric elements 60 of the piezoelectric stack, to properly show the embodiment of the invention as described in the written description. In Figure 2b, the line pointing to Element 82 was amended to more accurately point to the correct element. The remaining figures were not amended, but resubmitted to eliminate photocopy marks.
